

**NEW Portable BT-637 Bench-Top Particle
Counter Now Available**

The tool you need to network, monitor and verify your workplace environment.

If particulate levels and indoor air quality remain critical, the Met One Instruments BT-637 is the right choice. The unit was designed to meet the needs of monitoring professionals in any indoor environment or process verification application.

The new BT-637 features 6 channel sampling 0.3 to 5.0 micron at 0.1cfm, a long-life pump, AC or battery operation, flexible data interface, volumetric flow control, user programmable favorite size and alarm settings. The BT-637 can also be equipped with an optional RH/Temp sensor and portable printer.

Interfacing with your system is a breeze as the BT-637 comes standard with RS-232, RS-485, Analog (0-5V) and USB ports. For ease in data transfer we have added a memory stick port. Units come standard with computer software and logging capability of 8000 records.
